

## Plunger valve 2/2 way direct-acting

Type 6013 can be combined with...

Type 1078

Type 2508

- Direct-acting and compact valve up to diameter of DN 6.0
- Vibration-proof, bolted coil system
- Increased leak-tightness with welded plunger guide tube
- Explosion proof versions
- Energy-saving pulse versions

Valve 6013 is a direct-acting plunger valve. The stopper and plunger guide tube are welded together to enhance pressure resistance and leak-tightness. Various seal material combinations are available depending on the application. A Bürkert-specific flange design (SFB) enables space-saving arrangement of valves on a manifold. The coils are moulded with polyamide or with chemically resistant epoxy. Pulse coils and 'Kick and Drop' electronics are available for overexcitation (plug 2511) for the reduction of electrical power consumption during operation. Optional manual actuation enables quick commissioning and easy maintenance. In combination with a plug in accordance with DIN EN 17301-803 Form A, the valves satisfy protection class IP65. Stainless steel valves satisfy NEMA 4X.

### Circuit Function A

2/2 way direct-acting solenoid valve, normally closed

### Circuit Function B

2/2 way direct-acting solenoid valve, normally open

|   |                   | 3.0          | 0.23   | 0 - 6                              | 7  | 209271                      | 209277 |

<sup>1)</sup> Measured at +20 °C, 1 bar<sup>2)</sup> pressure at valve inlet and free outlet

<sup>2)</sup> Measured as overpressure to the atmospheric pressure

**Please note** that the cable plug must be ordered separately (see accessories and separate datasheet, Type 2508).

### Control for impulse version with polarity reversal control

| Polarity is marked on the coil with a label | Features     | Terminal connections                                |
|---|--------------|---|
| - switch ON +                               | valve open   | (+) on terminal 2 and (-) on terminal 1 (see below) |
| + switch OFF -                              | valve closed | (+) on terminal 1 and (-) on terminal 2 (see below) |

**Note:** Please use only the cable plug without electrical circuitry for the impulse version

## Technical data - analytical version

|  |  |
|--|--|
| <b>Analysis version</b>                    | Media flowing through are not contaminated   |
| <b>Limit for residual carbon</b>           | <0.2 mg/dm <sup>2</sup>  |
| <b>Permissible leakage rate for medium</b> | 10 <sup>-4</sup> mbar l/sec<br><ul style="list-style-type: none"> <li>• Neutral medium, which does not attack the body and seal materials</li> <li>• Technical vacuum</li> </ul> |
| <b>Electr. connection</b>                  | Tag connector acc. to DIN EN 175301-803 Form A (previously DIN43650) for cable plug Type 2508 (see accessories)  |
| <b>Mounting instructions</b>               | No oils, fats or silicone used during the assembly   |

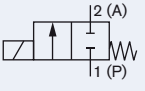

**Solenoid valves for higher Requirements**  
 This version is particularly suitable for switching from extremely pure gaseous medium. All media-affected parts are submitted to additional purification processes, so that the media is not contaminated under any circumstances.

The tightness test takes place at the Helium leak detector from a min. of 10<sup>-4</sup> mbar l/sec.

## Ordering chart (other versions on request)

<sup>1)</sup> Measured at +20 °C, 1 bar<sup>2)</sup> pressure at valve inlet and free outlet..

<sup>2)</sup> Measured as overpressure to the atmospheric pressure

**Please note** that the cable plug must be ordered separately (see accessories and separate datasheet, Type 2508).

## Technical data of the DVGW version

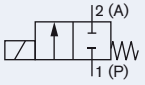

|                                |  |
|--------------------------------|--|
| <b>DVGW version</b>            | DIN EN 161:2013; DIN EN 13611:2015                                   |
| <b>Seal material</b>           | NBR  |
| <b>Medium</b>                  | Flammable gases such as town gas; district gas; liquid gas; hydrogen |
| <b>Mediums temperature</b>     | 0 to +80 °C  |
| <b>Ambient temperature</b>     | 0 to +55 °C  |
| <b>Max. Operating pressure</b> | 0 to 5 bar   |
| <b>Circuit function</b>        | A normally closed  |

The Type 6013 DVGW solenoid valve is designed primarily as an automatic safety shut-off valve for flammable gases. A strainer is installed in the inlet of the valve.

With manifold mounting, please comply with the permissible duty cycle (5 W models with 100 % continuous rating or 8 W model with 60 % duty cycle). The pressure port for the manifold is designated with P (R), and the outlet port with A (B). Only connect together ports with the same designation.

2/2 way valves of Type 6013 can be operated together on a manifold with 3/2 way valves of Type 6014, circuit function C (not D or T!) if the operating pressures agree according to the rating plates. The manifolds can also be expanded if the valve functions are taken into consideration. Connector nipples with O-rings are used to connect the P (R) ports.

### Attention!

Unused, open valve ports must be closed off with covering plates (see accessories). Manifold should be fixed on to a rail.

## Ordering chart for accessories

### Cable plug Type 2508 acc. to DIN EN 175301-803 Form A (previously DIN 43650)

Included in delivery is a cable plug with flat seal and fixing screw. Other versions, see Datasheet: Type 2508.

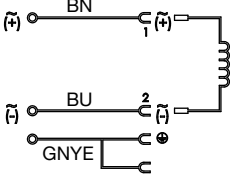

| Circuit                     | Voltage                 | Article no.  |
|-----------------------------|-------------------------|--|
| without circuitry           | 0 - 250 V               | 008376  |
| with LED                    | 12 - 24 V               | 008360  |
| with LED and varistor       | 12 - 24 V               | 008367  |
| with LED and varistor       | 200 - 240 V             | 008369  |
| with inverter <sup>1)</sup> | 24 V DC                 | on request   |
| further versions            | see datasheet Type 2508 |  |

<sup>1)</sup> The inverter plug contains an electronic, which especially enables the electric 3 wire control  
Input for 3 wire technology, common “-” polarity, two split “+” polarity.  
Output suitable for impulse version for Type 6013/6014

### Cable plug Type 2513 acc. to DIN EN 175301-803, Form A

Meets the requirements of ATEX category 3 GD
